CHIPPEWA LAKE LAKE RIGHTS AND WATERCRAFT DOCKING PRIVILEGES RULES AND GUIDELINES

LAKE RIGHTS AND WATERCRAFT DOCKING PERMITS:

Village of Chippewa Lake and Euclid Ave. area: The village will be processing Medina County Park District's watercraft docking permit stickers and fees for its village and the Euclid Ave. area residents. Applications, fees and permits will be handled through the village. Village residents may contact Amber Dalakas at 330-273-6303 or chippewalakeparks@gmail.com for additional information. Deadline for acquiring watercraft permit stickers: May 31, 2024.

Gloria Glens Association is processing all docking applications, fees, permits, and docking issues for its village. Village of Gloria Glens Park residents must contact Sue Jira at Gloria Glens Association at 330-697-7756 or smjira@live.com for information.

Property owners or lessees must register their eligible watercrafts and apply for and receive watercraft docking permits prior to docking any watercraft on Chippewa Lake. Annual docking or permit sticker fees must be paid in order to receive a watercraft docking permit.

Docks must either be registered with Medina County Park District or Gloria Glens Association depending on residency. All village, association, and/or private dock owner fees will be the sole responsibility of the watercraft owner and will be due and payable to said entities or persons.

Watercraft docking permit stickers must be displayed on the starboard side of the watercraft to the right of the OH number while docked in Chippewa Lake in a manner visible to A Medina County Park District park police officer; Ohio Department of Natural Resources Division of Parks and Watercraft Officers; or any other local, state, or federal officers conducting watercraft and/or dock inspections from the water.

Only properties having a residential dwelling with active deeded lake rights will be considered eligible for docking. All eligible residences will be limited to two docked watercrafts (a third watercraft may be approved by the park district director, and associated fees will be required). To verify the status of lake rights, contact the park office at 330-722-9364.

No watercraft docking permits will be issued to persons having property without a residence or with non-existent, inactive, or expired lake rights. To reinstate inactive or expired lake rights, a reinstatement fee and annual docking and permit fees must be paid to Medina County Park District (see "Fees" below).

If lake rights were not reported by Continental Business Enterprises at the time the park district took ownership of the lake, the property owner will bear the burden of proof of lake rights by locating and providing the park district with a copy of the deed granting lake rights prior to receiving a watercraft docking permit.

Under specific requirements, the park district may grant lake rights to properties not given deeded lake rights at the time of the original subdivision of Briarwood Beach, Gloria Glens, and the village of Chippewa Lake and issuance of lake rights by the Chippewa Lake Community Company and/or Parker Beach or are expired/inactive.

Any watercraft without a watercraft docking permit will be subject to impoundment and/or removal from Chippewa Lake. The owner of an illegally docked watercraft at Chippewa Lake may be cited for a violation of park rules.

Watercraft must be registered to either the property owner or the person having a legal lease or other legal association with the residence.

All watercraft must be supplied with all required safety equipment as specified by the Ohio Department of Natural Resources Division of Parks and Watercraft. Citations may be issued for violations of said requirements.

Indecent conduct, alcohol, disorderly conduct, disturbing the peace, etc., will be grounds for law-enforcement action. Citation(s) may be issued for violation of park rules.

FEES: *Fees are applicable as follows and must be paid prior to receiving a watercraft docking permit.*

*** *Village of Chippewa Lake and the Euclid Ave. area residents should contact Amber Dalakas at 330-273-6303 or chippewalakeparks@gmail.com.*

*** *Gloria Glens residents should contact Sue Jira at 330-697-7756 or smjira@live.com.*

Note: *Reinstatement fees are not being accepted for inactive or expired lake rights.* Docking fees will apply to Euclid area residences, those with property ownership transfers, or those with reinstated lake rights after 2006.

Property owners who had active lake rights at the time the park district took ownership of Chippewa Lake or who brought lake rights to a current status shortly thereafter and who still own said property will have the privilege of docking without having to pay docking fees. However, all watercraft must be registered with Medina County Park District, and park district-issued watercraft docking permits must be obtained and visibly displayed at a cost of \$10 each (limit two per eligible residence).

Annual Watercraft Docking Permit	\$10 each annually (limit of two permits per eligible residence) for residents with active lake rights at the end of 2006.
----------------------------------	--

ON HOLD

Inactive or expired lake rights reinstatement

Annual docking fees as follows:	\$150 per watercraft annually (maximum of two watercrafts per eligible residence with active lake rights) for those with reinstated lake rights after 2006, Euclid residences, and all property transfers after 2007. If you are required to pay this fee, the \$10 permit fee is waived.
---------------------------------	---

DOCK STRUCTURE PERMITS:

No new dock structure construction is permitted at Chippewa Lake. Existing docks may be replaced only after plans for updates to the structure are submitted to and approved by the park district. Replacement structures and/or improvements must be floating cluster docks. No single docks will be permitted.

A limit of one dock per residence with active lake rights is permitted. Failure to register a dock may result in its removal from the lake. Any unregistered dock must be registered with the park district by March 31, 2023. Permanent dock tags will be issued after dock applications are approved. There is a one-time fee of \$15 for the dock tag. No additional tag fees will be assessed other than replacement fees for damaged, lost, or stolen tags.

Dock tags must be affixed to the end of the dock structure in a manner visible toward the lake. Unpermitted docks will be subject to sanctions that may include impoundment or removal.

The park district does not guarantee dock locations to property owners. There are no “assigned” dock locations. Finding and securing dock space is the sole responsibility of the watercraft owner. Dock owners cannot reserve dock space to ineligible residents or residents not actively docking a watercraft in said dock space.

Homeowners do not have the right to transfer dock locations to new owners without the approval of Medina County Park District.

Ownership of lots adjoining the lake does not prevent the installation of docks in that specific area of the lake. Property owners with active lake rights have the ability to install docks adjacent to private property as long as the park district has reviewed the dock structure plans, has approved construction of the dock, and said dock is not directly attached to said property. There must be a standing easement to cross private property to access docks adjoining private property, and Medina County Park District must be provided a copy of said easement.
