CODE OF MISCELLANEOUS ORDINANCES

I. ADMINISTRATIVE

A. OPEN RECORDS POLICY:

Ordinance No. 706-10

[Amends Ordinance No. 655-07]

Introduction:

It is the policy of this Village that openness leads to a better informed citizenry, which leads to better government and better public policy. It is the policy of this Village to strictly adhere to the state's Public Records Act. All exemptions to openness are to be construed in their narrowest sense and any denial of public records in response to a valid request must be accompanied by an explanation, including legal authority, as outlined in the Ohio Revised Code. If the request is in writing, the explanation must also be in writing.

Section 1. Public records - This office, in accordance with the Ohio Revised Code, defines records as including the following: Any document – paper, electronic (including, but not limited to, e-mail), or other format – that is created or received by, or comes under the jurisdiction of a public office that documents the organization, functions, policies, decisions, procedures, operations, or other activities of the office. All records of this village are public unless they are specifically exempt from disclosure under the Ohio Revised Code.

1.1 It is the policy of this village that, as required by Ohio law, records will be organized and maintained so that they are readily available for inspection and copying (See Section 4 for the e-mail record policy). Record retention schedules are to be updated regularly and posted prominently.

Section 2. Record requests - Each request for public records should be evaluated for a response using the following guidelines:

2.1 Although no specific language is required to make a request, the requester must at least identify the records requested with sufficient clarity to allow the public office to identify, retrieve, and review the records. If it is not clear what records are being sought, the records custodian must contact the requester for clarification, and should assist the requestor in revising the request by informing the requestor of the manner in which the office keeps its records.

- 2.2** The requester does not have to put a records request in writing, and does not have to provide his or her identity or the intended use of the requested public record. It is this office's general policy that this information is not to be requested.
- 2.3** Public records can be available for inspection by appointment. Public records must be made available for inspection promptly. Copies of public records must be made available within a reasonable period of time. "Prompt" and "reasonable" take into account the volume of records requested; the proximity of the location where the records are stored; and the necessity for any legal review of the records requested.
- 2.4** Each request should be evaluated for an estimated length of time required to gather the records. Routine requests for records should be answered in a reasonable time.. Routine requests include, but are not limited to, meeting minutes (both in draft and final form), budgets, salary information, forms and applications, personnel rosters, etc. If fewer than 20 pages of copies are requested or if the records are readily available in an electronic format that can be e-mailed or downloaded easily, these should be made promptly. If more copies are requested, an appointment should be made with the requester on when the copies or computer files can be picked up. If a request is deemed significantly beyond "routine," such as seeking a voluminous number of copies or requiring extensive research, the acknowledgement must include the following:
- a.** An estimated number of business days it will take to satisfy the request.
 - b.** An estimated cost if copies are requested.
 - c.** Any items within the request that may be exempt from disclosure.
- 2.5** Any denial of public records requested must include an explanation, including legal authority. If portions of a record are public and portions are exempt, the exempt portions are to be redacted and the rest released. If there are redactions, each redaction must be accompanied by a supporting explanation, including legal authority.

Section 3. Costs for Public Records - Those seeking public records will be charged only the actual cost of making copies.

- 3.1** The charge for paper copies is 5 cents per page.
- 3.2** The charge for downloaded computer files to a compact disc is \$1 per disc.
- 3.3** There is no charge for documents e-mailed.
- 3.4** Requesters may ask that documents be mailed to them. They will be charged the actual cost of the postage and mailing supplies.

Section 4: Email Correspondence

The Village of Chippewa Lake is including this position statement as a part of our "records retention schedule" to clarify and define e-mails that need to be retained as an official record.

If an email **does not** set policy, **does not** establish guidelines or procedures, **does not** certify a transaction, or **does not** become a receipt, it will be considered a "non-record" aka a "transient

document” that does not need to be retained, that can be eliminated or discarded and does not need to be provided in a records request.

If, in the opinion of the Village Solicitor and/or Village Fiscal Officer, an email is considered “necessary” even though it may be a “non-record”, such emails will be retained as public records and provided in a records request.

Emails that do set policy, that **do** establish guidelines or procedures, that **do** certify a transaction, or that **do** become a receipt are considered public records and will be retained and provided in a records request.

This position statement is in line with the approved Ohio Electronic Records Committee document dated September 1, 2019 as found at www.ohioerc.org.

Section 5. Failure to respond to a public records request - The Village recognizes the legal and non-legal consequences of failure to properly respond to a public records request. In addition to the distrust in government that failure to comply may cause, the village’s failure to comply with a request may result in a court ordering the village to comply with the law and to pay the requester attorney’s fees and damages.

B. PERSONNEL POLICIES AND PROCEDURES

WEAPONS (Adopted 6/10/19)

Village employees and volunteers shall not carry weapons and/or deadly ordinance while engaged in work for the Village.

ORDINANCE NO. 625-06:

Personnel policies and procedures regarding harassment, hiring and driving rules

SECTION I: Village Council hereby adopts the following Personnel Policies and Procedures, attached hereto and incorporated herein, for application to Village employees, agents and representatives:

1. HARASSMENT IN THE WORKPLACE.
2. DISCIPLINE AND TERMINATION.
3. RECRUITING AND HIRING.
4. DRIVING RULES AND REGULATIONS with forms.

Harassment in the Workplace

PURPOSE

The purpose of this policy is to maintain a healthy work environment free from all forms of harassment and to provide procedures for reporting, and the resolution of complaints of harassment, sexual or otherwise.

DEFINITION

Sexual Harassment - Sexual harassment is unwelcome explicit or implicit sexual advances, requests for sexual favors, and other verbal or physical conduct when it is made a condition of employment, it affects the employee's employment status, or it interferes with the work environment through the creation of intimidating, hostile, or offensive work conditions.

Harassment does not include the conduct or actions of supervisors/managers intended to provide

employee discipline, performance evaluations, oral/written reprimands or other supervisory actions intended to promote positive performance.

POLICY

No employee shall explicitly or implicitly mock, threaten, intimidate, degrade, or insult any person. Every Employee is responsible for assisting in preventing harassment. Any employee who harasses another employee may be subject to discipline, including termination.

PROCEDURES

Individuals who consider themselves to have been harassed in the workplace should bring the matter immediately to their supervisor or department head.

The supervisor or department head will immediately investigate the complaint and take any appropriate action. This shall include a review of this harassment policy with the offender and, if necessary, disciplinary action based upon the nature of the offense.

- Capricious and unfounded charges of harassment may be a cause for disciplinary action
- Refusal by a supervisor or department head to act in legitimate cases of harassment may be a cause for disciplinary action
- Retaliation against an employee for having complained about harassment may result in disciplinary action.
- The rights of all parties shall be protected and due process shall be observed in dealing with complaints of harassment. However, since the Law dictates that a thorough investigation of sexual harassment complaints must be undertaken, complete confidentiality cannot be promised.

DISCIPLINE AND TERMINATION

DISCIPLINE

All employees are expected to exercise good judgment and common sense during the performance of their duties. All employees are expected to be courteous, loyal and dedicated. Acts, errors or omissions that impair an employee or hinder performance can result in discipline, including termination. The following are examples of the types of behavior that can result in discipline. These examples are not all-inclusive but serve as a general guide. Employees can be disciplined for other than the reasons presented directly below.

- Drinking alcohol or abusing non-prescription or prescription drugs or other controlled substances on the job.
- Arriving on the job under the influence of or in possession of alcohol, drugs, or other controlled substances.
- Violating a lawful duty
- Insubordination
- Unapproved absences from work
- Habitual absence or tardiness
- Unsatisfactory job performance
- *Conviction* of a felony or a misdemeanor involving moral turpitude.
- Inability, refusal or failure to perform assigned job duties.
- Violation of duties or rules imposed by the personnel policies or other rules, regulations and administrative orders.

In the event discipline is necessary, the following steps may be used, depending on the particular circumstance. These steps do not need to be followed in order to terminate an employee.

Oral Warning: This is a counseling session between an employee and a supervisor in which the employee's conduct and/or performance are discussed. It is intended to increase the employee's efficiency and value by pointing out problems and suggesting changes in conduct, *attitude*,

habits and/or work methods. Supervisors will document any oral warnings.

Reprimand: This *is* a formal written disciplinary action for misconduct, inadequate performance, or repeated lesser infractions. All reprimands are to be written and placed in an employee's personnel file.

Suspensions: This is a temporary paid or unpaid absence from duty that may be imposed as a penalty for significant misconduct, violation of the rules, continuing poor performance or repeated lesser infractions. This is considered a severe disciplinary action that becomes a permanent part of an employee's personnel file.

TERMINATION

An employee can be terminated for any of the following reasons:

- During or at the end of a trial period
- As a result of disciplinary action
- As a result of loss of skills, certifications or other conditions which make the employee unfit for work.
- Elimination of the employee's position
- the employee has a physical or mental impairment that prevents the employee from performing required duties. Termination must be supported by medical evidence that established that the employee is unable to perform essential job functions. Failure by the employee to submit to medical examination can result in termination.

In the event of termination, the employee will be provided with notice of termination. This shall include an explanation of the reasons for termination and the date termination will take effect.

TERMINATION HEARING

In the case of termination, the employee may request a termination hearing. This hearing serves as a check against mistaken decisions. Requesting such a meeting will not delay termination. During this meeting, the employee may explain why they should not be terminated. The employee may bring one person to this meeting as an observer or representative. Within five working days after this meeting, the employee will be informed if termination will proceed and/or stand or, if applicable, the employee will be reinstated and/or lesser disciplinary action will be applied.

LAYOFF

Employees may be laid off because of a lack of work, budgetary restrictions or other changes. In determining who is to be laid off, consideration will be given to individual performance and job qualifications. Seniority will be considered when performance and qualifications are judged to be equal. Laid off employees may be eligible for re-employment, if a vacancy they are eligible for occurs.

RESIGNATION

An employee will provide two weeks notice of resignation, although this time limit may be waived by management.

RECRUITING AND HIRING

RECRUITING

Recruiting will be conducted solely on the basis of ability, merit, qualifications and competence. No regard should be given to race, color, religion, national origin, sex, marital status, pregnancy, age, disability or political affiliation. Each applicant will complete and sign a standard official application before being considered for employment. Resumes may supplement but cannot take the place of this official application. Any applicant supplying false or misleading information can be dismissed from further consideration or, if already hired, is subject to immediate termination.

HIRING

When a position becomes vacant, the need for the position and examination of the current job description will be undertaken before posting the vacancy. Any changes in the job description will be made at this time.

Residency requirements are not a condition of initial appointment or continued employment. However, residency can be considered if it interferes with performance of duties and responsibilities (e.g., Police Officer must be able to make it to the station within 30 minutes, if called in an emergency).

Those applying for positions that require driving have to be at least 18 years of age and have a valid and appropriate (e.g., CDL) driver's license. In addition, these applicants will have acceptable driving records that are validated through a review of their Motor Vehicle Record.

Pre-employment examinations that test non-medical related qualifications and abilities may be part of the hiring process. Medical examinations, including those for alcohol or controlled substances, will only be administered after a conditional offer of employment has been made as the purpose of these medical exams is to insure that the employee is physically capable of doing the work and will not endanger the health, safety, or well being of other employees or the public. An offer of employment can be withdrawn if an applicant does not pass the medical exams, refuses to take the exams or tests positive for alcohol/controlled substances.

TEMPORARY EMPLOYEES

Temporary employees may be hired without competitive recruitment or examination, although they will complete the standard application. Temporary employees will not work in excess of 90 hours a month for more than five months in a twelve-month period. Temporary employees are eligible for overtime as required by law. They are not eligible and should not receive retirement, vacation, sick leave, health insurance, holiday, or any other benefits during their employment.

TRIAL PERIOD

All new employees or former employees who are rehired or promoted to new classifications will enter a trial period during which they will be required to demonstrate suitability for the position through actual work performance. Although this period is normally 6 months, it can be extended for longer periods if the position requires technical, professional, specialized, unusual or unique skills or qualifications. The trial period may be extended for an additional time (usually 6 months) when circumstances dictate (e.g., extended illness or management needs to continue to evaluate marginal performance). The trial period will not be shortened for any reason. An employee can be terminated at anytime during the trial period or extension. If terminated, reasons for termination will be documented. If an employee satisfactorily completes the trial period, the employee will receive a written performance evaluation documenting this.

EMPLOYMENT OF RELATIVES (NEPOTISM)

"Relatives" include an employee's parent, child, spouse, brother, sister, in-laws and step relationships.

Relatives will not be employed where

- One of the parties would have authority (or practical power) to supervise, appoint, remove or discipline the other,
- One party would be responsible for auditing the other,
- Both parties report to the same immediate supervisor,
- One of the parties is a policy level official, or
- Other circumstances are present that can lead to conflict between the parties.

If two employees who are related become related or and anyone of the above noted problems is then present, only one of the parties will be allowed to remain an employee, unless reasonable accommodations can be made to eliminate identified potential problems. The parties will be given 30 days from the date they become related to decide which employee will remain. If no decision is made by this time, then either employee can be terminated.

PROMOTIONS AND TRANSFERS

Promotions and transfers will be based upon work force requirements, performance evaluations, job descriptions and related requirements. To be considered for another position, an employee must have satisfactorily completed any trial period and possess the qualifications for the position in question.

GENERAL DRIVING RULES AND REGULATIONS

POLICIES

Overview

As a Chippewa Lake employee, you are constantly in the public eye. Every time you drive a vehicle or piece of equipment in the performance of your duties, you are representing the Village. You are not only responsible for your and security but the safety and security of citizens and visitors to Chippewa Lake. As a result, all Village drivers are required to exercise the utmost care and caution while operating a motor vehicle. Employees who regularly or occasionally operate Village or personally owned vehicles while in the employ of the Village are required to abide by all applicable State laws in addition to these rules and regulations.

Definitions

Vehicle - Unless otherwise specified, a vehicle is any automobile, truck or piece of equipment allowed to operate on the streets and highways of the State of Ohio, whether licensed or not.

Assigned Vehicle - A vehicle that is provided to a particular employee. The employee is considered the principal driver of the vehicle and may not use the vehicle to commute to and from work or otherwise operate the vehicle after normal business hours.

Driving Record Acceptability

Any employee who drives a Village or personal vehicle while in the employ of the Village whose driving record shows anyone of the following conditions will be considered to have an unacceptable driving record and will not be permitted to drive until his/her record no longer exhibits one of the criteria listed below.

1. One or more serious violation(s) in the last two years.
2. Two or more at-fault accidents in the last year involving a Village owned vehicle where the accident results in property damage in excess of \$2,500

Any employee involved in three or more at-fault accidents within a one-year period, or more than four within a two year period (regardless of accident type or monetary loss), will be required to attend a defensive driving course or similar remedial type training. The employee's respective Department will be responsible for ensuring that the employee receives this training within a reasonable time frame, training is documented, and all documentation is forwarded to the Village Clerk-Treasurer.

3. More than three moving violations in the last two year period, including traffic citations received as a result of an accident.
4. Any combination of traffic accidents and/or moving violations equaling five or ore in

the last two years.

Unless otherwise noted above, moving violations include those that involve personal vehicles that are and/or are not being used during employment as well as those that involve Village owned vehicles.

At-fault accidents that occur in an "emergency vehicle" when the vehicle is on an emergency call (e.g. fire fighters driving a fire engine in response to an alarm and police officers responding code 3), will be counted only if the accident is determined by an accident review committee to have been "avoidable". The traffic accident committee should be comprised of at least 5 full-time employees of the same department, and represent a variety of ranks within that department. The committee should review each at-fault (unit-1) accident to determine whether the accident was "avoidable". An "avoidable" accident is defined as: "one in which the operator failed to do everything reasonably expected of him/her to avoid the accident".

Serious violations include, but are not limited to driving while intoxicated; Driving while under the influence of drugs; Negligent homicide arising out of the use of a motor vehicle (gross negligence); Operating a vehicle without a license; Using a motor vehicle during the commission of a felony; Aggravated assault with a vehicle; Operating a vehicle without the owner's authority (grand theft); Permitting an unlicensed person to drive; Reckless driving; Speed contest; and Hit and run driving.

General Rules and Regulations

1. Only employees who are included on a Village roster of drivers that shall be considered an attachment to this policy and procedures are allowed to drive Village owned or personal vehicles during the course of their employment.
2. Vehicles are to be driven in a manner such as to create a favorable impression to the public. Drivers shall exercise special precautions when:
 - a. Children are playing on a roadway, alley, or near the curb
 - b. Passing schools or playgrounds
 - c. Approaching persons on bicycles
 - d. Driving during inclement weather
3. No employee under the age of 18 is allowed to drive Village owned or personal vehicles during the course of their employment.
4. Authorization for temporary/seasonal employees to operate vehicles shall be limited where practical. However, if authorized, these employees must be placed on the driving roster prior to their driving assignment, and approved by the Mayor of the Village.
5. Vehicle Operators must possess a current Ohio Operators license appropriate to the vehicle being driven.
6. Any employee who operates a vehicle on a regular or occasional basis is required to report any license suspension or revocation, including those that result from the operation of personal vehicles, to his immediate superior. Likewise, all accidents or moving violations obtained while driving a Village owned vehicle must be reported to his/her immediate superior. All reportable accidents and/or moving violations shall be forwarded to the Clerk-Treasurer.
7. Drivers will not operate vehicles when under the influence of alcohol or illicit and/or driving impairing drugs.
8. Drivers will use the proper signals when stopping, turning, or slowing down.
9. All drivers will give a pedestrian the right of way.
10. Flasher lights on trucks, cars and equipment should be used as emergency or work conditions require. Flasher lights are not to be used as an excuse to gain the right of way or to break traffic rules.

11. All traffic laws of the State of Ohio, including signs and speed limits will be obeyed.
12. Employees driving vehicles during their employment are responsible for insuring that the vehicle is properly maintained and in a generally safe operating condition.
13. Employees shall not transport passengers except for those who are employees of the Village or are conducting business with or on behalf of the Village, except as noted under **Personal Use and Take Home Policy** below.
14. No one is permitted to ride outside the passenger compartment when a vehicle is in motion (except in the case of certain fire engines).
15. Employees driving personal vehicles while in the employ of the Village will maintain primary automobile liability insurance coverage on the vehicle being drive. State required minimum bodily injury/physical damage limits must be maintained. The employee's supervisor is responsible for insuring that employees using their personal vehicles maintain adequate insurance.
16. Personal vehicles will not be used to pull trailers or haul equipment while being used in Village related business.
17. Village owned vehicles shall be kept free of having placed on or within any stickers or signs which: indicate any political candidate, party, organization, or theme; are in poor taste; or relate to specific social concerns that may be found objectionable by citizens.

Seat Belts

All employees shall use their seat belts (including shoulder straps) while driving vehicles other than equipment. Employees shall wear seat belts, if provided, when operating equipment. All passengers are required, unless unable to do so, to occupy only those seating positions equipped with seat belts and use them.

Backing

Backing of vehicles should be discouraged given the rate of accidents that take place during this operation. No vehicles should be backed up unless the driver cannot avoid it and he has a clear view of the entire area to be backed into. If such a view is not present, the driver, if alone, will get out of the vehicle and inspect the area to be backed into or, if a second person is in the vehicle, the second person will get out and guide the driver using appropriate hand and/or voice signals.

Vehicle Inspections

All vehicles except personal passenger cars and pick-ups will be inspected at least once each day or, if the vehicle is not used daily, each time before the vehicle is placed into service, but no more than once during a 24 hour period, except with respect to police cruisers that will be inspected before each shift. Personal passenger cars and pick-ups will be inspected on at least a quarterly basis. Inspections will focus on identifying any obvious physical damage, inoperable running lights and horns, loose steering, and inappropriate tire condition. Records of these inspections will be maintained. Any deficiency encountered will be reported to the employee's Department Head of designee immediately. It will be the Department Head's responsibility to insure that appropriate action is taken to correct the problem.

Maintenance

All Village owned vehicles are to be maintained according to the manufacturer's specifications. Records of this maintenance activity are to be retained. All personal vehicles driven during the course of employment shall be maintained in a manner that promotes safe travel.

Parking

Village vehicles or personal vehicles driven by Village employees during the course of their employment are not to park in "NO PARKING" zones. No vehicle or piece of equipment is to be left unattended with the ignition key left in the ignition. All vehicles will be locked when parked and unoccupied.

Personal Use and Take Home Policy

Village vehicles are not to be used for personal business except for incidental purposes while used for Village business. For example, an employee may, when commuting between work and home, stop and pick-up or drop off a spouse or child at work or at school, as long as the stop to be made is not significantly out-of-the-way. However, if an employee's personal vehicle is near his work-site, a Village vehicle may not be used for personal errands such as running to the bank or taking people to lunch unless there is a work-related purpose immediately prior to or following the personal errand and it is more time efficient to use the Village vehicle.

Village vehicles that are taken home are not to be used for personal business while housed at the employee's residence unless the employee is on-call and must have ready access to his vehicle. In addition, the Mayor may grant personal use of marked and unmarked police vehicles and marked fire vehicles within their appropriate jurisdictions.

If an employee is on extended absence from working including injury leave or is on restricted or modified duty and unable to perform on-call duty or work evenings and/or weekends, he will not use the assigned Village owned vehicle until he returns to active on-call or an evening/weekend work schedule.

Special Equipment

Special Equipment such as tractors, fire engines, or any vehicle which has special devices added for specific types of work will require that the driver receive formal instruction prior to usage. This special training will comply with all appropriate OSHA, NFPA and DOT Standards and rules and regulations.

1. Explanation and demonstration of all control devices.
2. Explanation and demonstration of all safety equipment.
3. A walk through of all inspection criteria.
4. Demonstration of operation.
5. Supervised new driver operation.

Written documentation of all special training will be retained by the departments.

Proof of Insurance

Each Village-owned vehicle should have an insurance card kept in the glove compartment or attached to the driver's sun visor. Missing insurance cards should be reported to the Clerk-Treasurer. Any employee using their personal vehicle during the course of employment should carry a proof of insurance card. It is the employee's supervisor's responsibility to ensure all employees using personal vehicles for Village business purposes, complete the Appendix B "Insurance Maintenance Requirement for Personal Vehicle" form once each year, and return to the Clerk-Treasurer.

PROCEDURES**Driving Record Acceptability**

The Clerk-Treasurer will obtain Motor Vehicle Records on all employees on the Village roster of Drivers once every year. These, along with any Uniform Police Traffic Accident and Ohio Uniform Accident Reports will be reviewed by the Mayor to determine if any employees on the

roster of drivers has an unacceptable driving record. Those who do will be notified in writing by the Mayor using the Notice of an Unacceptable Driving Record form in Appendix A. A copy of the complete form will be sent to the employee's Department Head.

Roster of Drivers

An official roster of drivers that is supplied by the various Department Heads will be maintained by the Clerk-Treasurer. This document will highlight the number of at-work at-fault accidents, citations and major violations that drivers have had in the last three years. **Only employees whose names appear on this roster are allowed to drive during the course of their employment.**

Departmentally specific sections of this roster will be disseminated to appropriate Department Heads every six months. It is the responsibility of the Department Head to insure that the roster for their particular department remains current and that the Clerk- Treasurer is notified of any correction, additions and/or deletions to the list.

Under Driver Type:

- A - Person drives during the course of their employment on more than an occasional basis
- B - Person drives occasionally during the course of their employment
- C - Person may be required to drive their own personal vehicle for employment purposes.
 - 1 - Person is assigned a Village vehicle that is taken home at night
 - 2 - Person is assigned to a Village vehicle(s) that is not taken home at night
 - 3 - Person has a CDL and is not assigned to a Village vehicle that is taken home at night

General Driving Rules and Regulations

All employees who drive personal vehicles during the course of their employment are required to complete the Insurance/Maintenance Requirements for Personal Vehicles form (See Appendix B) each year and return the form to the Clerk-Treasurer.

Personal Use and Take Home

The Clerk-Treasurer will maintain a list of employees that the Mayor has indicated can take Village owned vehicles home and/or can be used for personal business. The Department Heads are responsible for notifying the Clerk-Treasurer so appropriate changes in the list can be made.

Training

Employees who are assigned to a particular Village owned vehicle will be instructed by the Service Department on the operation and general driving conditions of the vehicle before being allowed to initially drive the vehicle. Employees who drive other than private passenger automobiles and pick-up trucks not equipped with special equipment will be trained in the operation of the vehicles in question before being allowed to drive such vehicles. The Department Heads are responsible for insuring such training takes place, and that it is documented.

Driver Training courses will be offered as deemed necessary, and all employees having one "at-fault" accident or one moving violation (received while driving a Village vehicle) within a prior one year period will be asked to attend.

Record Keeping

1. Any Notice of an Unacceptable Driving Record will become part of an employee's personnel file.

2. Motor Vehicle Records and Uniform Police Traffic Accident/Ohio Uniform Traffic Accident Reports will be maintained by the Clerk-Treasurer in a central file.
3. The Roster of Drivers shall be considered a part of these policies and procedures and will be included with them.
4. Signed and dated "Insurance Maintenance Requirement for Personal Vehicle" forms will be maintained by the Clerk-Treasurer in a central file.
5. The Clerk-Treasurer will maintain a list of employees authorized to take vehicles home.

C. Purchasing Policy

PURCHASE ORDERS - OAC 117-3-05

Section 505.41 of the Ohio Revised Code states that no contracts or orders involving the expenditure of money may be made unless the Fiscal Officer has certified "the amount required to meet the obligation has been lawfully appropriated for such purpose and is in the treasury or in the process of collection to the credit of an appropriate fund free from any previous encumbrances." The vehicle to present this certification is the purchase order.

Any contract made without this certification shall be void and no warrant shall be issued in payment. The only exception to this comes under the provision of a "then and now" certificate. Basically this provision allows for the legislative body to approve a purchase order after the goods or services have been purchased if two (2) conditions have been met: (1) there were appropriations to cover the payment at the time the contract or order was placed, and (2) currently there are appropriations to cover the payment. If the order is for \$3,000.00 or less, the Fiscal Officer may authorize the expenditure. Otherwise, the legislative body must pass an ordinance or a resolution or a motion authorizing the expenditure.

The process of using purchase orders not only facilitates the ordering of the merchandise or services, it is also a part of the budgetary process. The amount of each purchase order shall be posted to the proper appropriation ledger page(s). This is known as "encumbering" or "setting aside" a portion of the appropriation. The Fiscal Officer's certificate appears on the bottom of the purchase order. This states that the funds are available and/or in the process of collection. This means that the legislative body has appropriations and the cash to pay for this purchase or the money is estimated to be collected. The posting of the purchase order reduces the amount of available appropriation. When an appropriation account reflects zero, then no purchase orders can be entered into until the taxing authority increases that account's appropriations.

Each purchase order will provide the following information:

1. Purchase order number (consecutively numbered)
2. Date
3. Name of Village of Chippewa Lake
4. Name of Vendor
5. Account Code
6. Quantity, unit description, price per unit, and amount
7. Name and title of person authorizing purchase order
8. Destination
9. Method of shipment
10. Fiscal officer's certification

There are two (2) types of purchase orders, regular and blanket, as described below.

REGULAR PURCHASE ORDER

A regular purchase order is issued when a purchase of specific items is planned. For example, the local government issues a purchase order for a calculator. A regular purchase order is done to issue orders for payment, and make contracts or obligations calling for or requiring the payment of money made for specified permitted purposes from a specific line-item appropriation account in a specified fund. Upon the certification by the Fiscal Officer that this sum of money has been lawfully appropriated, authorized, or directed for a permitted purpose and is in the treasury or in the process of collection. These purchase orders are usually for specific expenditures that are recurring and are reasonably predictable operating expenses for the current year. More than one such purchase order may be outstanding at any time. An example of such a purchase would be the entity's telephone expense for the year. If a purchase order is issued at the beginning of the year for the current year telephone expense, then the certificate of availability of funds would set aside the amount from the appropriate appropriation at that time for this specific expense.

BLANKET PURCHASE ORDER

A regular blanket purchase order is used to purchase a variety of items over a period of time. The maximum length of time a blanket purchase order can be outstanding is until the end of the fiscal year. The maximum amount of the blanket purchase order is that of the final budgeted appropriation amount. Blanket purchase orders can be issued to a variety of vendors or a specific vendor. For example, a Zoning employee periodically needs different supplies while working on related matters. The purchase order would be encumbered against the appropriate account. The dollar amount should be based on an estimate of what will be needed. If the purchase order is depleted before the time element has expired, a new blanket purchase order may be issued. A blanket purchase order should be labeled as such and state the effective dates and maximum dollar amount.

ORDERING AND RECORDING THE PURCHASE

The purchase order, once given to a vendor, not only constitutes an order to pay; it is a record to compare to an actual shipment of materials and a document which, when accompanied by an invoice from the vendor, will authorize the Fiscal Officer to prepare a voucher for the purchase.

Once a purchase order is approved and signed by the appropriate official, the following copies will be distributed:

1. The original copy is filed in an "Open Purchase Order" file in the Fiscal Officer's office.
2. A copy is emailed or hand-carried to the vendor.

Upon receiving the actual materials or services ordered by the purchase order, the Fiscal Officer will check the shipment against the receiving copy of the purchase order.

1. If the shipment is complete, the Fiscal Officer will indicate such on the receiving copy of the purchase order.
2. If the shipment is only partial, the Fiscal Officer will indicate on the receiving

copy those items received and mark the copy as a partial shipment. This copy may then be used to authorize partial payment or held until the shipment is complete.

Upon receipt of the receiving copy of the purchase order the copy is then filed until receipt of the vendor's invoice.

PAYMENT OF INVOICES

When an invoice is received by the Fiscal Officer for goods or services, the Fiscal Officer will compare the copies of the purchase order with the invoice. No invoice will be paid without a corresponding purchase order confirming receipt of the goods or services. No vendor will be paid from a periodic "statement" nor from a duplicate invoice to assure that the proper amount is paid and no duplicate payments are made.

When the Fiscal Officer has matched the invoice to a purchase order, he or she will compare the amount of the invoice with the amount of the purchase order. If the invoice billing is greater than the purchase order authorization and the purchase order amount was derived from a firm quote by the vendor, the Fiscal Officer must consult the vendor to determine the reason for the difference and have the legislative authority or authorized officer approve the difference before a voucher is written. When the purchase order amount was derived from an estimate, the Fiscal Officer will have discretion to authorize an expenditure of up to 10% in excess of the purchase order amount.

The Fiscal Officer will create a voucher and check on the Uniform Accounting Network computer to be attached to the receiving copy of the purchase order, the invoice, with the expenditure posting detail written on it. The Fiscal Officer will sign the check and forward it to either the Mayor or President Pro Tern for signature along with the voucher and attached documents.

Once the check and the attached documents have been returned to the Fiscal Officer, he or she will mail the check to the vendor and file the voucher, invoice and receiving copy of the purchase order in a file by month labeled "Paid Warrants".

PURCHASE OF CONTINUING OR CONTRACTUAL SERVICES

A separate purchase order for contractual services will be initiated at the time a contract is entered into by the Village of Chippewa Lake. The purchase order will show the title and date of that contract and the amount appropriated for the contract during the fiscal year. If the contract carries beyond any fiscal year, a new purchase order should be initiated for the new year. All payments for invoices under the contract will then be associated with this purchase order number.

Each month, upon receiving a bill and confirming the existence of adequate cash and unencumbered funds, the Fiscal Officer will prepare a voucher for the amount of the bill for those contractual services.

PURCHASE OF CAPITAL ASSETS

When a purchase order is initiated for the purchase of capital assets, the Village of Chippewa Lake Council must first approve the purchase of capital assets prior to purchase, even though

there may be appropriations to cover the purchase. This allows Council to be aware of significant purchases made for the Village.

A.1. Federal Purchasing Procedure as a Prime Receiver

The Village will follow the Procurement Standards contained in 2 CFR, Part 200, 200.318 through and including 200.327 (the above sections are made a part of this procedure).

Appendix II to Part 200 – Contract Provisions for Non-Federal Entity Contracts under Federal Award – the Village will abide by the requirements of this Section when applicable and are incorporated into this procedure by reference to same.

Prohibition on certain telecommunications and video surveillance services or equipment – Per 2 CFR, Part 183 – the Village will, to the best of its ability, strive to meet requirements of this Section on any significant purchase that prohibits doing business with an “enemy” of the United States that use equipment or services as a substantial or essential component of any system, or as critical technology as part of any system that are associated with any “excluded companies and/or individuals” by including a clause in the Conditional Purchase Order that will require a sign-off by a senior official of the Vendor/Contractor signifying no such affiliation and/or do not contain any substantial/essential components of any identified system. D. Banking and Investment Policy

Village of Chippewa Lake, Banking and Investment Policy:

1) Banking & Investment Policy Statement and Scope of Policy:

This document, in conjunction with the Ohio Revised Code and any Ordinance, as amended, will govern the banking and investment activities of the Village of Chippewa Lake. It will be reviewed annually by the Village Council - Finance Committee for compliance, guidance and to ensure the flexibility necessary to effectively manage the investment portfolio by the Village Fiscal Officer.

2) Banking & Investment Objective:

The primary banking and investment policy is to assure safety of principal, while conforming to applicable Federal, State and other legal requirements.

Secondary objectives are to provide adequate liquidity and maximize investment income, without undue exposure to risk.

3) Banking and Depositories:

The Village will only invest or deposit public monies in a bank account holding only active deposits and/or interim deposits pursuant to the Ohio Revised Code Section 135.14 (B)(3) & (O)(2) and/or the Ohio subdivision's fund (STAR Ohio) pursuant to Ohio Revised Code Section 135.14(B)(6).

Currently, banking and interim deposits are with:

- Westfield Bank for the Village Checking Account and Money Market Account – to maximize earned interest on the Checking Account we participate in an Insured Cash Sweep (ICS) program, that deposits the majority of the monies into other FDIC insured banking institutions thus even when the cash balance exceeds FDIC limits, all monies are FDIC insured by being deposited in these other banking institutions and the interest rate far exceeds typical checking accounts which are typically far less than 1% - the higher interest rate, earned on the Money Market account also equals the higher interest rate being earned at the ICS banking institutions
- STAR Ohio - The State Treasury Asset Reserve of Ohio (STAR Ohio) allows Ohio government subdivisions, including counties, cities, townships, villages, etc., to invest in a highly-rated public investment pool. The Ohio Treasurer's office acts as administrator and advisor, managing STAR Ohio's portfolio and working to maximize returns for government subdivisions. Since 1995, STAR Ohio has maintained Standard & Poor's highest rating of AAAM. STAR Ohio's AAAM rating is based on an analysis of the pool's management, investment guidelines, portfolio holdings, and market price exposure. STAR Ohio offers the increased earning power of a sizable pool. This program allows public fund managers, regardless of size, to pool their investments enabling all participants equal buying power and the ability to receive the same rate of return on their investment. This investment is not FDIC insured.

Any change in any depository will be processed as per Section 5 Annual Review detailed below.

4) Finance Committee:

The Mayor will select two persons from within the council to serve as Finance committee members. The Fiscal Officer will be the third member and may serve as Chair. The Chairperson can also be selected from the committee as determined by the Mayor.

5) Annual Review:

An annual review of the Village's banking and investment policies will be conducted prior to the January Council meeting. Results will be reported by the Finance Committee Chair at the January Council meeting.

The full Council will consider any amendments, recommendations, or changes necessary for discussion and ratification at the January meeting.

Other meetings of the Finance Committee will be held as deemed necessary by the Committee, Mayor or Fiscal Officer.

- b. Such Certified Annual Notice of Exemption copy shall be incorporated into this Policy on an annual basis.

9) Ineligible Investments:

- a. Derivative Securities
- b. Commercial Paper
- c. Local government investment pools, except STAR Ohio.

10) Bi-Annual Audits

All bi-annual audits conducted by the Auditor of State's office or their designee, and such audits do include the review of all Village banking and investment transactions and utilized depositories

11) Ethics and Conflicts of Interest:

The Fiscal Officer and any other employees, agents or members of the Village of Chippewa Lake Village Council involved in the investment process shall refrain from any personal business activity that could impair that person's ability to make impartial investment decisions.
